I'm passionate about coding and travelling. I combined these two passions and I've travelled around the world and worked remotely for 2 years before the pandemic started. I've developed 2 web apps in **Ruby on Rails** and in 2020 complemented my hands-on experience with a **9-week intensive web dev bootcamp at Le Wagon Lisbon**. These days I'm focusing on **OutSystems**, having now **3 certifications** under my belt. I'm currently helping the team at Promedico building powerful apps.
