📍 Lisboa, Portugal ⌨ github.com/twikah in linkedin.com/in/vanessaes

I am an office manager turned **full-stack web developer**, previously graduated in finance, accounting and taxation. Having started **coding on my own** to build a website for my boss, I decided to learn **Ruby** more in depth. I have just completed the intensive **9-week web development bootcamp at Le Wagon Lisbon**.

I'm looking for a position as a web developer in a challenging and creative environment within a team that encourages learning to develop innovative products.

EXPERIENCE

Office Operations Manager & Junior Developer
Medical Locum Services

📅 February 2017 - March 2020   📍 Remote, Australia

- Ported the company's website from Wordpress to **Ruby on Rails** to improve the Doctors' onboarding and the management of job postings.

- Developed a back-office for bookings' management. This included generating confirmation letters and invoices for these bookings.

  Technologies used: **HTML, CSS, Bootstrap, jQuery, Ruby on Rails, Heroku, Git**

- Recruitment consultancy, customer support, account reconciliation and activity report preparation.

WEB DEV PROJECTS

🚀 Outflix | Expiring Content Tracker
📅 March 2020   🔗 http://www.outflix.rocks

Outflix integrates with an unofficial Netflix **API** to display content leaving Netflix. Use of **Rails tasks** and **Heroku scheduler** to update content and notify users of new expiring titles via email or sms.

Technologies used: **HTML, CSS, Bootstrap, ES6, Ruby on Rails, RESTful API, Heroku, Git, Github, Twilio**

🚀 Secret Sessions
📅 Feb 2020   🔗 secret-sessions.herokuapp.com

Secret Sessions is marketplace for promoting movie screenings in secret locations. Practised **CRUD**, implemented **search** and **geocoding** in Rails.

Technologies used: **HTML, CSS, Bootstrap, Ruby on Rails, Heroku, Git, Github**

🚀 Personal portfolio
📅 July 2018   🔗 vanessaesanto.com

I developed my personal webfolio and blog as a way of applying for the first time the concepts learnt on multiple online tutorials.

Technologies used: **HTML, CSS, Ruby on Rails, Heroku, Jekyll, Github pages**
